

RETHINKING THE WAY SAFETY BEDS CAN WORK.

The New SleepSafe® Manual Safety Bed.

UP FRONT CONTROL AND VERSATILITY.

SleepSafe® II - Medium Bed
Full Size - Cherry

Manual Foundation now offers **four choices** with easy to operate hand cranks.

1) Manual Hi-Lo - Hi-Lo Foundation with Articulation.

This will raise and lower the mattress height and raise and lower the head and knee section of the bed by using the three cranks.

2) Manual Flat - Hi-Lo Foundation without Articulation.

This will raise and lower the mattress height by using one crank located in the center of the front panel of the bed.

3) Manual Electric - Articulating Foundation with Manual Hi-Lo.

This will raise and lower the head and/or knee section of the bed electrically with remote. Will raise and lower mattress manually.

4) Manual Plus - Articulating Foundation without Hi-Lo.

This will raise and lower the head and/or knee section of the bed by using two cranks located in the front panel of the bed.

SleepSafe® Beds is a domestic USA manufacturer of custom safety beds, featuring removable safety side rails, designed to address the issues of falls and entrapment for those with special needs. Models include SleepSafe®-Low Bed, SleepSafe® II-Medium Bed, and SleepSafer®- Tall Bed, offering progressively more safety rail to mattress height.

SleepSafe® Beds are built to order, offering twin, full or queen size; fixed, articulating or HiLo foundations; padding; wood and color choices, and other helpful options. SleepSafe® Beds help those with special needs get a safe, restful sleep with peace of mind for their caregivers.
